This is **Article:**

- Autism Term

It is **About:**

Autism

This **Term:**

- Autism

Is quite **simple**

We can **see:**

Simple

In the **term**
Autism

The **term** itself:

- Is a **simple**

Construct

Look

Root

Quickly:

- Term **Autism**

Originally:

Greek word

This is **worth**:

Seeing

Again:

- **Simple**

Term Autism

Greek **word** is:

autos

It is **called**:

- **Useful**

So:

Not thought of
As **bad**

Main **reason** is:

Self

Yes:

- **Term** self

Think:

- self
- same
- he/she
- it/they

Greek autos

We **know** this:

Term autos

As **self**

Like:

- automobile
- autobiography
- autism

These are:

Things

- **About** self

Example:

automobile
autobiography
autism

About self

So:

Not so **hard**

Old

Quite **old**:

- **Term** autos

Greek autos

It is in:

- **Christian**

New Testament

It was **used**:

A lot

Term autos:

Greek autos

Could **convey**:

- **Meanings**

Like:

himself
herself
itself
or same

So it is:

Useful term

Since a:

- **Long** time

Useful term

Term autos:

Greek autos

Review

So:

- Autism **Term**

Title here

We **see**:

Term is **simple**

Remember greek:

autos

self
same
he/she
it/they

Greek autos

And **remember:**

Known use

- automobile
- autobiography
- autism

These **uses** are:

About self

Self driven

Self story

Or **term** autism:

- **About** self

I **think:**

Autism **means**

Self absorbed

The **ending:**

- ism

Refers to

The **term**

Auto is self

Ism is **about**

Referring to:

- Autism

So **here:**

Thinking of this

Term autism:

Referring to

Self

Pg 5

Focus

We **see**:

- Definition

Autism

Term autism:

About self

And if:

- **About** self
- Then

Focus

So **simply**:

And we

Probably

Know this

Autism as:

- **Self** absorbed

And **reasons**:

Whoa

There could be

A **few**

Autism as:

- **Self** absorbed

Focused on **self**:

Autism

Story

So here:

- A **story**

I **make**

A **story**

Remember:

- **Autism**

Sorry but:

The **story**

As we **know**:

- A **guy**

More or less:

Average guy

For example:

- **Lives** life
- Has some **friends**
- **Makes** it

Not in **jail**:

Not **vicious**

Hence:

- **Average** guy

Regular guy:

The **guy**

After Time

Well:

- **Average** is

Ok

Yet:

After **Time**

What I **mean**:

Is

- After **Time**
- Going **dry**

Hey:

There could be
Causes

Like **Aging**

People **change**

Or even:

Same old **stuff**

Guy:

- After **Time**

Going **dry**

Sometimes we **must**:

Go with the
Times

For example:

If **common**
Changes a lot

We must **still**:

- **Fit** in

So:

Sometimes we
Must

Go with the
Times

If **common**
Changes a lot

- We **adapt**

After **Time**:

Hard to
Stay

The **same**

Word is **adapt**

Description

Here:

- In **story**

Guy **continues**:

But

Things change too

Whoa:

People find
Things to **do**

If guy:

- **Tries**
- **Same** thing

And people:

Try
New things

Then:

- We **need** time

Interpret
Check it out
Maybe try it

Like:

New things

Remember:

- **Conservative**

Or:

Fundamentalist

Not **everybody**:

- **Wants**

To **change**

For example:

Kid may
Like **pa**

Could be

Kid wants to:

- Be like **pa**

Could be

So **much**:

Variety around
Pg 10

Whoa

Sometimes people:

Hesitate

Like on
New things

Yep

Ok

Method

Guy may:

- **Try**

A **method**

This is so:

Simple

For example:

He may **have**

- **Idea** that works

And we **see**:

Sometimes

He may:

- **Try** it

Idea that works

Heck:

He may
Try it **twice**

Could **happen**

We have **seen**:

- **Such**

He may
Try it **twice**

Idea that works

Moving On

Another example:

- Guy may

Try

Idea he **likes**

This is **common**:

- To **try**

Idea we **like**

Well:

- What **about**

These **two**
Together

What **about**:

- These **two**

To **try**
Idea we **like**

And
Try it **twice**

Whoa:

- **Look**

Result

We **see** this:

- **Around**

Remember:

Guy story

And:

For a **reason**

Well:

- The **two**
- Ideas

These **two**

Together

- To try
- Idea we **like**

And:

- Try it **twice**

Guy **did** this:

Omg **yes**

Look

Guy:

- **Puts** idea

Then:

Seeing it **work**

Starts on:

Number **two**

Pg 13

Remember:

Same **idea** again

Gosh:

- **Guy**

You see:

When Guy

- **Sees**

Same idea **again**

Well:

- He **likes** it

This is:

Quickly

Guy **puts**:

Same idea

After:

- **Put it once**

Second time:

After **put**

- He **sees** it
- He likes it

And so:

Hesitates

Btw:

- If he

Hesitates

Like:

Too **long**

Whoa

They could
Call him **names**

Oooh

If he
Hesitates

Like
Too **long**

After
Second time

They would
Call him names

Oooh

Seeing it

We **see**:

- When **guy**

Puts idea

Same idea
Second time

He **hesitates**

Could **happen**:

To **hesitate**

Well:

- **Second** time

Look

When he **puts**:

Good idea
Second time

He doesn't
Really **want**

To **lose** it

Remember **guy**

He **likes** it:

- His **idea**

He **likes** it

So:

- **After**

Second time

Either:

Idea doesn't
Go good

Or:

He **grabs** it

Grabs it like:

- For **him**

Oh **guy**:

You **sly** thing

So:

- **Point**

Let's see

Point

Pg 16

Point

If guy:

- **Takes**

Too **long**

Like:

Being there

Or:

Satisfying others

Hey:

They **notice**

If **guy**:

- Only **has**

One idea

One idea **put**

Then:

- Others **notice**

We **know**:

Social

We **must** be:

- Attentive
- Hearty

Or **listen** ok

This is **known**

Pg 17

Yet **guy**

If he is:

- **Fooling** with
- His **stuff**

Like **one** idea

People may:

- **Think**

Self absorbed

Or **preoccupied**

People may:

Think

- Not **enough**
- There

Guy must:

Appear

Attentive

Hearty

Or **listen** ok

This is:

Regular

Requirement

If guy:

Keeps his idea

Or:

Idea

Comes up **short**

Pg 18

People **notice**

People are:

- On the **spot**

No **burden**

They don't

Like this

So he could:

- Get a **name**

Guy could be:

- **Called**

Self absorbed

We **see** it:

And maybe

Know it

Guy could be:

- **Called**

Self absorbed

Whoa

Title

Reason to:

- **Say** this

Reason for:

Story

Guy story

Pg 19

Title is:

- Autism **Term**

Guy could:

Get **called**

Autistic

Self absorbed:

- Autistic

This may:

Seem simple

Yet:

Some people

- **Make**

Big deal

Of it

Get **called:**

Autistic

Self absorbed:

- **Autistic**

Some people

Make

Big deal

Of it

WTF

Poor **guy:**

Like **victim**

Oooh

World Example

Quick **exit**:

- Yet

One thing

World Example

This is **funny**:

- **World** Example

I **knew** a guy:

Had a **cat**

Nice guy

With **cat**

So **nice**:

- To the **cat**

Example:

Say **hi**

Feed him

And love

Cat:

Liked it

The **love**

Treated good:

- **Cat**

So:

Example

Well:

Cat **thought**

He was
Doing ok

Remember:

Owner
Liked him

So **cat**:

- **Liked** cat

Too

And **this**:

- Omg

Was the **fall**

You see:

- **Cat** fell
- In **love** with
- **Cat**

Loving **himself**:

Cat

Became:

- **Self** absorbed

Cat **loved** cat

Treated good:

- **Cat**

And **this**:

Must be **wrong**
Pg 22

Reason is:

- Cat **got**

Cat Fever

Symptoms:

Hair fell out

Got **thin**

Whined a lot

Cat Fever:

- **From**

Self absorbed

Cat **fell:**

In **love** with

Self

And so:

Cat Fever

Lol:

Dumb cat

Article is:

- **Autism** Term
