This is **Article:**

- Padding

It is **About:**

Padding

Padding like:

Add to
Or **bolster**

I **think:**

Padding
We **know**

Common example:

- **Pad** a box

When we:

Ship something

Like a **package:**

Padding
Can **help**

We don't **want:**

Things to ship

In **danger**

So:

Pad a box
Pg 1

To **help** it:

Get there

Safe

Padding

I think:

- **Padding**

We know

About

One example:

- Padding

We **see**

One example

Pad a box

This makes:

- **Sense**

Pad a box

Yet:

Not the **only**

Padding

And also:

- **About**

Padding:

Has **more**

And since:

Padding Article

Then **point** is:

- Padding
- Has **more**

Today I:

See it

- **Padding**

So **now** the:

More

Padding
Has **more**

Today

I can **say**:

- **Why** padding

Article is:

Padding

Padding
Has **more**

Padding:

- Can **mean**

To **add** to

We **saw**:

Pad a box

To **add** to:

- For **security**

Padding

To **add** to:

For **support**

Pad a box:

Makes **sense**

Yet **today**:

- People **use**
- **Padding**

Different

Today:

We **see** people

Using padding

People may:

Use padding

Today

To **add** to:

- Yet **different**

Padding has:

Definition

And:

Pad a box

Makes **sense**

Yet **different**:

Not **always**

Since **Article**:

Is **Padding**

Then **about** is:

- **Specific**

I can **show**:

Specific

Example of:

Padding today

More

Mentioned is:

- **Today**

And **topic**:

Padding

Has **specific**

Time comes in

About time:

- **Today** is

Current

Today is

Current time

We **see** people:

- **Today**

Using padding

And **today**:

People **use**

Padding

Different

Today we **see**:

- People

Using padding

For **themselves**

Quickly:

- This **padding**

Used now

Currently

Can be like:

Padding

Definition

Definition is:

- To **bolster**
- To add to
- To increase

Today:

People **might**

Even

Use padding:

- For **time**

To **add** to:

To **increase**

Time

Like:

For **themselves**

Padding **has**:

Definition

Pg 6

Yet **different:**

- Not **always**

If people:

Use padding

For **themselves**

And **apply** it:

To **time**

This **seems:**

- **Different**

Padding:

**Applied to
Time**

May be:

Difficult

And **specific:**

- About **time**

Is **future**

Padding:

**Applied to
Future**

May be:

- **Difficult**

And **padding:**

The **future**

For **themselves**

Pg 7

This may be:

- **Difficult** too

Whoa

Seeing it

Whoa:

- **Today**

Today we **see**:

People **use**
Padding

For **time**

And **specific**:

- **About** time

Is **future**

Today we **see**:

- People

Trying to **pad**
The **future**

We do
See this

This is like:

- **To**

Line it up

Line up:

- The **future**

For **themselves**
Pg 8

Think of:

Make it **better**

Make it **brighter**:

- The **future**

Trying to:

- **Pad** the future

For **themselves**

Seeing this:

People **trying**

To

Pad the future

- Seems **odd**

Remember:

Life is hard

So:

Daily life

Takes **effort**

Trying to:

Pad the future

Sounds **difficult**

And **trying**:

- To

Pad the future

For **themselves**

Difficult too

So:

Seeing this

People **trying**

To

Pad the future

Seems **odd**

Whoa

Example

Remember:

- **Computer**

Cell phone:

Is **like**

Computer

Computer:

- Has **data**

Input data:

Like to a

Library

Inside computer:

- Data **sits**

We **know:**

Computer

Computer:

- **Programming**

Installs data

Put it in:

Install data

Computer
Programming

People:

- **Program** it

Computer

To:

Design it

Design it **for**:

- How it
- **Will** be

Install data:

Put it in
Install data

People:

- **Program** it
- Computer

For:

How it
Will be

But the **future**:

Whoa

How to:

- **Program** it

The **future**

Maybe not **easy**:

- Program
- The **future**

This is:

Example

Padding

Trying

Maybe not **easy**:

- **Program**
- The **future**

Padding:

The **future**

Whoa:

- The **future**

Like:

Design it

For

How it

Will be

Install data:

- **Put** it in
- **Install** data

The future:

Program

The **future**

Whoa:

Maybe not **easy**

Future is:

- Not the **same**
- As **computer**

No

Method

We **see**:

- **Today**

People **trying**
To

Pad the future

Method:

- Like **how**

How to
Pad the future

Method

The **best**:

- **Description**

People **trying**
To

Pad the future

Is **insist**

I **see** them:

- **Try** to

Force things

Or:

Insist

They **have**:

- **Methods**
- They like

And so:

- **Want to**

Put it in:

The **future**

I **see** them:

Try to

Force things

Or **insist**

Install:

- **Put** it
- In

The **future**

Yes I **see** it:

- **Padding**

But what about:

Effective

Can this **work**:

- **Program**
- The **future**

Try to:

Force things

Insist:

Put it in

- **Padding**

I see it:

And it seems
Odd

To me:

- **Difficult**

How to
Program the
Future

Whoa

Accuracy

I think **no**:

- **Program**
- The **future**

So many:

Things around

I **think**:

Program the
Future

No

Not **likely**:

- Not **possible**

So many
Things around

So:

- **Quickly**

Pg 15

If
**Program the
Future**

Not **likely**
Not possible

Then:

- **Term**

Pretend

If:

**Program the
Future**

Not **likely**
Not possible

Not **accurate:**

- Then **pretend**

What about:

Pretend

We cannot:

- **Incline**
- The future

We cannot:

Make
The future

Whoa:

So many
Things around

I **think:**

- **Program**
- The **future**

Padding it:

No

Not **likely**
Not possible

Then:

- **Pretend**

These people:

Trying to

Program the
Future

Padding it:

Not **likely**
Not possible

Then:

Pretend

We cannot:

Incline
The future

We cannot:

Make
The future

Whoa:

So many
Things around

Then:

- **Pretend**

This **effort**:

- **Program** the
- Future

Only **pretend**

Definition

Remember:

- **Pretend**

About this:

Definition

Pretend:

- **Why**

Pretend

Like:

Why

disguise

misrepresent

Why:

assert falsely

Pretend is:

- not **really**
- what it **is**

To present:

Falsely

To **mislead**

To **lie**:

- Pretend

Like a:

game
or deception

Pretend as:

counterfeit
impersonate

Like **fake**

These **people**:

- Trying to

Program the
Future

Padding it:

- Not **likely**
- Not possible

Then:

Pretend

Only pretend

Suggest

What about:

- **Suggest**

This:

Suggest

As a **method**

Think of:

- **suggesting**

Like to **others:**

suggesting

- creating a
- **false** appearance

Can it be **ok**

Pretend:

deception of
others

Can it be **ok**

Omg:

- **Like**

What is this

Like:

A **war** game

Omg:

- Jeez

Like:

How can it

Work

Whoa:

- **Effective**

Maybe **no**

Pg 20

This:

Suggest

As a **method**

Whoa

Ponder

If padding:

- **Used**

If people

Use padding

Ponder:

- **Like**

for how **long**

Padding can't

Last forever

How **good:**

- The **padding**

Omg:

I **hope** it

Doesn't

Wear out

The padding:

- **Whoa**

Ponder:

When future

Arrives

Like **later**

Was padding:

- **Effective**

How **much**:

Padding

Perceived

Like **when**:

- Future **arrives**

Whoa:

Maybe

But **also**:

Maybe **not**

When future:

- **Arrives**

Like:

After padding

Can we

See it

- Padding

Do we

Stay the same

After padding

Omg:

Do we **remember**

Like:

- **Previous** input

Pg 22

When future:

- **Arrives**

Do we **remember**

Not **me**:

No

And **ponder**:

Most **important**

This **matters**:

- What if

Someone **else**

Did **also**

Padding **too**

Omg:

- **Run**

ENDING

Quickly:

- **Ending**

Good **luck**:

Padding

Send me money:

- Ok

Article is:

Padding
