

## TWO MENTAL

Author:  
Thomas Lloyd  
132 Co

This is **Article:**

- Two Mental

**About:**

Mental Health

**This as:**

**Topic**

Rather **Grand**

So:

**Specific** is

Mental Health  
System

In USA:

- Mental Health
- System

And remember:

**Also**

Number **two**

Oooh

**Root**

Before:

- To **start**
- Recall **specific**

**Topic** is:

Mental Health

**Specific** is:

- Mental Health
- System

Ok:

**Set**

I have:

**Articles**

About **both**:

**Topic** and  
Specific

**Root** is fact:

- Mental Health
- System

In USA:

**Existed**

And people:

**Know** it

So:

Mental Health  
System

In USA:

- Has **definition**

This definition:

- **Root**

Pg 2

## About

So:

- Yuck

Like:

Having **topic**

With **specific:**

- Mental Health
- System

Then:

**Sure**

Like **why:**

- Why **mention**

Yuck:

Mental Health  
System

Ok:

**Fair** enough

Reason is:

- **Title**

Yep:

**Besides**

Topic and  
**Specific**

Mental Health  
System  
Pg 3

There is:

- **Title**

**Two** Mental:

**Title**

**Known** thing

**About** this:

- Mental Health
- System

Has **clients**

People **committed**:

Like **guilty**

- Are **clients**

Population of:

Mental Health  
System

Is **clients**

In-dwellers:

- Clients

Ok:

**Title**

And remember:

Number **two**

Oh

**First**

First **time**  
Pg 4

Since:

- Number
- **Two**

Is **here**:

Like **title**

Then:

- **First**

If:

Number **two**

**Has** two:

- Then **first**

And quickly:

**Category** is

- Time

**First** is:

- **Time** as

**Short** term

This is like:

**Word** quick

Quick is:

- **Short** term

Doesn't take:

**Long**

To **get** this

Pg 5

**Quick** is:

- **Short** term

So **first** is:

**Short** term

**Short** term:

Is **like**

Quick

Ok:

- **First**

**Definition**

Staying with:

- **First**

Example:

- Like **why**

**Mention** first

What's **so**:

Good

About **first**

**First** is:

- **Short** term

Category:

- **Time**

First is:

**Short** term

Pg 6

And **topic:**

**With** specific

Mental Health  
System

**First** as:

- **Short** term

Example:

temporary stay

**Short** term:

- Facility

**Examples** of:

**Short** term

In:

**Category** time

- **First** is

**Short** term

**Quick** is:

Example

- **Short** term

Examples were:

**temporary** stay

**Short** term:

- Facility

**Two** examples:

**Category** time

**First** is:

**Short** term

**More**

Whoa:

- You **remember**

5150

Lol:

Yes

Of course:

Remember **that**

Quickly:

- 5150 is

**More**

More:

**Example**

On **first**

First is:

- **Short** term

5150 is:

**Three** day hold

**Legal** document:

- 5150

I **guess** a:

**Form**

5150:

**Three** day hold

**Obligation:**

To **issue**

5150

When **client:**

- Does intake

5150 **form:**

**Three** day hold

Required

Yet **another:**

- Example

**First** is:

**Short** term

First of:

- **Two** times

**Category** time:

**First** is

**Short** term

**Second**

**After** first:

- Second

Second **time**

Pg 9

If:

- **First** is

**Short** term

Then **obvious**:

Second

**Second** is:

- **Long** term

And **review**:

**Topic** and

Specific:

Mental Health  
System

Then:

- **Second** is

**Long** term

**Category** time:

**Second** is

**Long** term

Ok

**Process**

**How** it goes

We **understand**:

- **Process** here

Like:

- **Two** times

**Short** term

**Long** term

So examples:

- **Second**

Second is:

**Long** term

Whoa:

**Description**

Look:

**Most** clients

**Committed**

Once:

Like **fingered**

Then:

- Whoa

**Left** alone

Maybe **abandoned:**

But **still**

Whoa:

Like **forever**

Jeez:

**Almost** a

Rook

Pg 11

## **Committed**

Once:

- Then

**Left** alone

Like **forever**:

- Maybe
- **Abandoned**

This is like:

The

**Abandoned** ones

Whoa

**This** is:

- Example

By **description**:

**Category** time

**Second** is:

- **Long** term

## **Point**

Good:

- To **get** to

Here

**Point**:

Number **two**

**Category** time:

- **Two** times

**First** is  
Short term

**Second** is  
Long term

- **Two** times

Topic and:

**Specific**

Mental Health  
System

- In **two** times

**Point** is:

**Confusion**

Look:

- With

**Two** times:

**Short** and **long**

Then:

**Distance**  
Enters

Wtf:

- **Short** term
- **Long** term

**How** to reckon:

These **two**

**What** is it:

Mental Health  
System  
Pg 13

## Viewing

People **never**:

- Get out

Mental Health  
System

This is **known**

The **hold**:

- Continues

Like **always**:

The **hold**  
Continues

So **point**:

- Wtf

**How** to reckon:

**Two** times

Do we:

- **Think**

**Short** term

Or:

**Think**

**Long** term

Omg:

What **about**

- Breathing

Can we:

**Breathe** please

Is is **ok**:

To **breathe**

And if so:

- To **breathe**

Please

- **Short** term
- Or
- **Long** term

Breathe:

**Short** term

Or

**Long** term

Lol

**Point** is:

- With

**Two** times

I **think**:

Mental Health  
System

Doesn't **know**:

**What** to do

**Show** it:

- Quick

## Show

If:

- **Two** times

**Short** term

**Long** term

Then:

How to **balance**

**What** to:

- **Make** of it

Wtf is it:

Mental Health

System

**Lock** people:

- Away

**Quickly**:

**Short** term

Then:

- **Leave** it

Like **forever**:

Maybe **abandoned**

Always with:

**Nobody** there

Jeez:

- **What** to
- **Make** of it

Pg 16

Only **confusion**

So:

The **two** times

Probably don't:

- **Know**

**Each** other

And so:

- Just **dual**

Look

**Dual**

Quick:

- **Definition**

Dual

**Dual:**

Then **exit**

Dual is:

- **Of**
- Or **among**

The **pairs** of:

**Opposites**

**How** to:

- **Know** it

**View** it:

**Manage** it

Pg 17

- How

I **think** no:

Not **possible**

No

**ENDING**

Well:

- Finish

Good **luck**:

For

**Reading** this

If:

Mental Health  
System

With:

- **Two** times

Is only **dual**:

Of

Or **among**

The **pairs** of  
Opposites

Then:

- Not **possible**

Mental Health  
System

Maybe a **joke**:

- But

Not **more**

Omg:

Too **much**

**Two** much:

- Yes

Like **only**:

- Apples and
- Oranges

**Two** times:

- Not **related**

**Article** is:

**Two** Mental
