Is secondary

It comes:

- After

After primary

Term familiar:

- Is secondary

This is:

Dependent

- Needs

Level two:

As dependent

Has needs

Needs acquaint

We can't be

familiar

With something

we never saw before

Acquaint:

- like previous

We meet:

or see things

- before familiar

term familiar

So familiar:

- depends on

acquaint

Acquaint:

- like

for the first time

- acquaint

Acquaint:

is like

for the first time

Previous

Said is:

- previous

Not:

for the first time

- previous

Like before

Acquaint:

is like

for the first time

Previous is:

- prior

previous

Not:

for the first time

Think:

- to meet

Or encounter

That;s how:

relationship starts

- To meet

or encounter

This is acquaint

Like first time

- acquaint

Previous is:

- prior

previous

Not:

for the first time

Think:

- to meet

Or encounter

Acquaint:

- is like

for the first time

Acquaint:

- often has

no prior

Familiar:

- depends on

acquaint

Acquaint first:

before familiar

Lacking

Well:

- previous

Has prior

Like:

previous meeting

We know:

many things

in the world

Not all is:

- familiar

no

Review

So familiar:

- we like

Previous:

- acquaintance

like friends

are dear to us

Familiar is ok

So review:

- term familiar

good to see

Yet:

- remember

not all things

are familiar

Many things:

in the world

yes

Not all things:

- are familiar

Assign

Some things:

- lacking

Like:

- not familiar

We can't know:

everything

Example:

- you can't

assign familiar

no

Familiar needs:

- acquaint

or prior

These days:

some people try
to enter our
space

They say to:

take them as
familiar

Shocking

There is no:

- prior

no previous

Never saw acquaint:

no

These people:

- approaching

may try to act
like
in the familiar

May try to:

- assign familiar

Yet:

if we don't
know them

then wtf

We can't:

- assign familiar

no

It needs:

- prior

previous

First meeting:

is just acquaint

Nobody can:

enter our space
like
for the first time

and tell us
to take them
as familiar

no

Again:

wtf

Familiar:

- needs acquaint

like

first time

Not from nowhere:

familiar

no

Not familiar:

lacking

Time

Familiar:

- we know

Most things:

familiar to us

- take time

Hard to:

- just meet

and have familiar

ok

Most things:

- familiar to us

take time

Familiar:

- as level two

Pg 13

- Secondary

Familiar:

- often needs

time

Time to:

become itself

- familiar

It is hard to:

see something

only one time

And then:

call it familiar

Familiar usually:

- needs

some measure of
time

Remember:

- acquaint

or relationship

So familiar:

- probably

is a built thing

I think:

- familiar

Comes over time

A built thing:

- familiar

We can't:

- assign familiar

no

More of a:
