Interest:

A word:

Interest us

Definition

- Interest

Why:

Why do we:

- Discuss

Interest

A fun word:

Interest

Again:

- Sometimes

Many things

Interest us

Many people

Many interests

We say:

And we
Know it

Interest

Think:

Thing

Like us

Many views

Word
Interest

Then Article is:

About Views

Title =

Interest View

So with:

Different
Views

Pg 4

- Word interest

Then Point

I will share:

Definition
Interest

- Two views

Interest

Them

These two:

- Views

Interest View

Are:

Common view

And then:

My view

So:

- Soon

Definition
Interest

Two views:

Common view

And my view

Definition
Interest

Main View

Here starts:

- Topic

Definition

Interest

Two views

Again:

Common view

And:

My view

First is:

- Common view

Simple

Most sources:

Definition

Interest

Use:

Common view

This is:

Word

Interest

Common view =

- Finance

It seems:

Common view

Pg 6

Word
Interest

- Is finance

Term used for:

Finance

Interest

Common use:

Word
Interest

Refers to:

A payment made

Like for:

Use of
Someone's money

- Interest

Common use

We know:

Often

Borrower pays

Borrower:

Pays interest

Interest:

Common view

Often shown:

In percent

We know:

When you
Borrow money

You pay
Interest

So this:

We can see

Like:

For finance

Common view:

Word
Interest

Is finance

Common use:

Word
Interest

Is finance

- Main View

Definition interest

Moving on

- So we know

Common use:

Word
Interest

Finance

We have:

- Seen it

A long time

Common use:

Word

Interest

Finance

Yet still:

- Me

Like:

Seeing this

I am amused

Sure:

I am not

Amused often

Yet here:

- Amused

Reason is:

- I guess

Outlook

Let me explain

Since:

- Common use

Word

Interest

Pg 9

Is finance:

- Main View

Well me:

- Not so

Interested

I can say

My View

Really:

- Definition

Word

Interest

I think:

- Different

You see:

More than
Finance

I care more:

- About friend

For me:

I would like

Friend

Yes

Interest in:

- Friend

Like someone:

I could have

Interest in

- Friend

Sure:

I could use

The percent
Measure

That would be
Ok

But I care:

More about

Someone I
Could have

- Interest in

But percent:

Is not all

No

Metrics

- More on this

Other metrics:

- Can matter

Like:

- Freshness

I don't want:

A dull
Finance friend

No

Other metrics:

- Can matter

Like:

- Freshness

Freshness:

- Here

Like:

Where I am

This is:

My venue

Freshness:

- Here

My venue:

Yes

Keep it fresh

Cool

Refresh venue:

Whoa

That's for me

Good

Pg 12

Another

Since we are:

- Doing ok

Another

Another:

- Metric

Interest

This is:

- Main point

Name is:

Someone I
Could have

In common
With

Related:

- Yes

To have:

Something in
Common

- Together

This is:

- Main point

Interest

And it means:

So much
Pg 13

I could:

Adjust word

Interest

Look

Adjust

Whoa:

- If I had

Friend

With:

Something in

Common

It would be:

- Like related

And so:

Word interest

Adjust is:

In ter est

Three syllables

Same word

To:

- In terr est

The middle:

Adjusts

Reason is:

- Like earth

Earth is:

- Terrain

Terrestrial:

Also

Spanish:

- Tierra

Italian:

Terra

Word interest:

Ok

Adjust is:

In ter est

To:

In terr est

Terr:

- For

Earth

Terrain

Terrestrial

Spanish

Tierra

Italian

Terra

Something in:

- Common

Together

Like related:

- A friend

Yay

Interest

Interested in:

- This

More than:

Common use

Finance

Oooh

ENDING

Whoa:

- Great word

Interest

I hope we:

Don't fall

Asleep

- On this

Summer is:

Over

But interest:

- No

Interest

Remains

Pg 16

And also:

- Interest View

Many views:

- Interest

Article is:
