This is Article:

- Two Lines

About:

Two Lines

Two Lines:

That I know

These two lines:

- Are related

I can show

They can relate

Occur

These two lines:

- Topic

And title =

Two Lines

Lines people know

- Two lines

I can show:

These two lines

But first

Pg 1

- Occur

Like when:

- People say

These two lines

They occur

Each time

To say

The line occurs

Gets said =

- Occur

Ok

More

Well:

- Occur

We see

- People say

These two lines

So they occur

Each time

To say

Line occurs

And there are

Two

- Two lines

But each line:

- May occur

Multiple

This:

- Multiple =

Maybe more

Than once

Hey:

If it is
Popular

May occur
More than once

- So multiple

Multiple may
Occur

Yes

Term multiple

Is like

- How often

Think:

frequency

Like:

- regular

Or rare

A good line:

May occur

Maybe more
Than once

If it is
Popular

May occur
More than once

- A good line

Think frequency

Like:

- how often

Could be:

Regular

Or maybe rare

- Occur

And frequency

Ok

Occur

Them

Whoa:

- Here

Like

- Line one

Good

Line one:

- Explain

Pg 4

Think:

- Picture

Let me tell
You

It

Line one:

- Hey

We know it

Picture =

I see people

- Around

And this is
For

A long time

Line one:

- Is

See Jesus

Like on cross

Staff says:

hold him up
or you will
perish

Yes:

I have seen
This

- A long time

Pg 5

Staff says:

hold him up
or you will
perish

I guess:

perish from

not hold him
up

I have seen
This

- Yes

A long time

Ok

- Line one

About

In this:

- Line one

We see jesus

And this:

- A long time

We have seen
This

A long time

Jesus on cross

A long time

Ok

So this:

On cross

And:

A long time

Has some:

- Lasting

To it

A long time

Has lasting

Ok

And btw:

We see too

In line one

- occur

And frequency

Good

So about =

Lasting is
There

- A long time

Yes

Next

After:

- Line one

Pg 7

Line two

Next line =

- Line two

Line two:

- Shows us

Continue

Since:

On cross
Occurred

A long time
Ago

Lasting is
There

Yes

So:

- Line two

Consoles

- Line one

Line two =

if lasting
stays around

then
the world
doesn't end

Line two:

- Consoles

Line one
Pg 8

Consoles because

On cross =

- A long time

And:

A long time
Ago

So lasting
Is around

And this:

Lasting around

Is for

A long time

A long time:

And

A long time
Ago

On cross =

- A long time

And

A long time
Ago

- So lasting

It has been

A long time

On cross
Around

Yes

Console

Since:

- On cross

Is for

- A long time

And:

A long time

Ago

Then we see:

- Lasting has

Been around

It has been:

- A long time

On cross

Around

So lasting:

Has been around

Since:

A long time

- Lasting

Ponder

Good term:

- Ponder

We know it

Ponder

Like:

- Think over

Sometimes:

Christians

- Call it

contemplate

Ponder:

Can be like

contemplate

Ok

Example:

- Ponder

not every time

This is like:

- A phrase

not every time

This phrase:

not every time

many things we
do

we get to a
point

- to say

not every time

So we ponder

Pg 11

Answer

We may try:

- a method

Or approach

Sometimes it:

- may work

but maybe also

not every time

Remember:

- a phrase

not every time

We know:

we can't use

one thing
for everything

Think:

- nuances

or distinctions

Many things:

- have these

nuances
distinctions

And also:

- variety

Many things:

have these

When we:

see these things

Or:

types of things

We see:

- we can't use

one thing
for everything

one method
one approach

Not for everything

Hard to find:

- one solution

only one

we can't use
one thing
for everything

Hard to find:

one solution for
everything

No answer:

in just
one thing

they probably
don't make

thing like that

one solution for
everything

- probably not

No easy answer

No

Review

So:

- Line one

Line one:

- Is

See Jesus

Like on cross

Staff says:

hold him up
or you will
perish

This line:

hold him up

probably this
can't solve
everything

And remember:

- Line two

Consoles

Line two =

if lasting
stays around

then
the world
doesn't end

We usually:

take time
to do things

hold him up

i don't think
that

it could solve
everything

no

And:

- line two

if lasting
stays around

then
the world
doesn't end

so there might
be time

like to think

or breathe

Time to plan

do chores

if lasting
stays around

then
the world
doesn't end
Pg 15

Line two:

there might still
be time

ENDING

Enough said

I think:

- line one

is slim

In life:

much to do

Nobody has extra

Even if:

hold him up

- is

pondered on

Idea:

we can't use
one thing
for everything

We know this

So line two:

- Consoles

Line one

Line two =

if lasting
stays around

then
the world
doesn't end

- Best wishes
